TROPICAL CYCLONE BULLETIN NR. 4
Severe Tropical Storm DOMENG (JANGMI)

Issued at 11:00 PM, 29 May 2026
Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

DOMENG INTENSIFIES INTO A SEVERE TROPICAL STORM.

Location of Center (10:00 PM)

The center of Severe Tropical Storm DOMENG was estimated based on all available data at **1,045 km East of Central Luzon (16.3°N, 131.9°E).**

Intensity

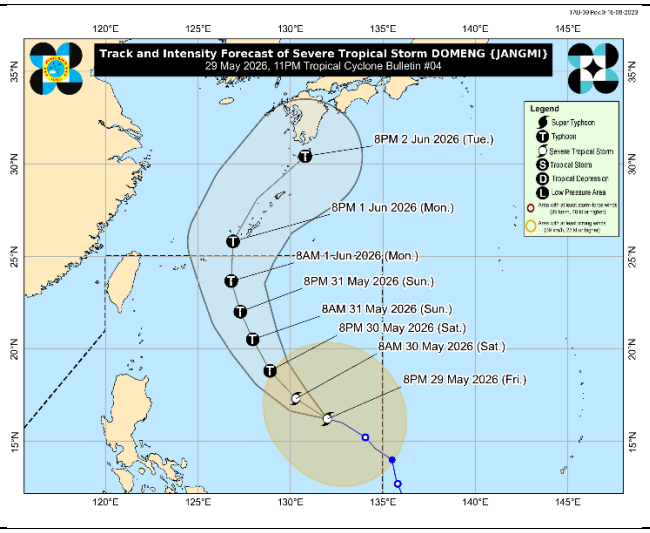
Maximum sustained winds of **95 km/h** near the center, gustiness of up to **115 km/h**, and central pressure of **990 hPa**

Present Movement

West northwestward at 15 km/h

Extent of Tropical Cyclone Winds

Strong to gale-force winds extend outwards up to **460 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 8:00 AM 30 May 2026	17.3	130.3	910 km East of Northern Luzon	100	STS	NW 20

TROPICAL CYCLONE BULLETIN NR. 4
Severe Tropical Storm DOMENG (JANGMI)
Issued at 11:00 PM, 29 May 2026
Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

DOMENG is less likely to directly affect the weather condition of the country in the next 24 hours. However, the southwesterly windflow enhanced by DOMENG may bring **heavy rains over the western portion of the country beginning Sunday (31 May)**. **A weather advisory may be issued tomorrow (30 May)** in anticipation of the heavy rains.

Severe Winds

Based on the latest forecast track, the **hoisting of tropical cyclone wind signal over Extreme Northern Luzon is less likely, but not ruled out.**

The enhancement of the southwesterly windflow and the periphery of DOMENG will bring strong to gale-force gusts over the following areas (especially in coastal and upland areas exposed to winds):

- **Tomorrow (30 May):** Most of Visayas, Batanes, Cagayan, Pangasinan, Zambales, Bataan, Tarlac, Nueva Ecija, Bulacan, CALABARZON, MIMAROPA, Bicol Region, Zamboanga del Norte, Misamis Oriental, Camiguin, Agusan del Norte, Surigao del Norte, Dinagat Islands, Sarangani, Davao Occidental, and Davao Oriental.
- **Sunday (31 May):** Most of Visayas, Batanes, Cagayan, CALABARZON, MIMAROPA, Bicol Region, Zamboanga del Norte, Misamis Occidental, Misamis Oriental, Camiguin, Agusan del Norte, Dinagat Islands, Surigao del Norte, Sarangani, Davao Occidental, and Davao Oriental.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 3.5 m:** The eastern seaboards of Batanes and Babuyan Islands.
- **Up to 3.0 m:** The remaining seaboards of Batanes; the northern seaboard of Babuyan Islands; the eastern seaboards of Cagayan, Isabela, and northern Aurora.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The remaining seaboards of Babuyan Islands, Cagayan, and Aurora; the northern and eastern seaboards of Polillo Islands, Catanduanes, and Northern Samar; the eastern seaboards of northern Quezon; the northern seaboards of Camarines Norte and Camarines Sur.
- **Up to 2.0 m:** The northern seaboards of Ilocos Norte and Camiguin; the eastern seaboards of Eastern Samar, Dinagat Islands, and Davao Occidental; the southern seaboard of Bohol; the seaboards of Surigao del Norte; the eastern and southern seaboards of Davao Oriental.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TROPICAL CYCLONE BULLETIN NR. 4
Severe Tropical Storm DOMENG (JANGMI)
Issued at 11:00 PM, 29 May 2026
Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- Severe Tropical Storm DOMENG will continue moving generally northwestward until Sunday (31 May) before recurving towards southern Japan for the remaining forecast period. This tropical cyclone is less likely to make landfall over the country. DOMENG will likely exit the Philippine Area of Responsibility (PAR) by Monday (01 June).
- DOMENG will continue to intensify and may reach typhoon category tomorrow (30 May) evening while remaining over the Philippine Sea. Afterwards, it will steadily weaken but will remain as a typhoon throughout the rest of the forecast period.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
